Our Company

Sahay Racks Pvt Ltd is one of the leading manufacture of steel storage racks exclusively for automobile spare parts. Sahay racks was established in 1980 and is an ISO 9001:2008 certified manufacturing concern, having state of arts technology and fully CNC controlled plant.

The Racks range are very unique to meet the requirement of spares storage in automobile sector. Sahay racks manufactures storage racks to suit the need of automobile sector spare parts management.

Sahay Racks Pvt Ltd is committed to cater the need of the market. The racks emerge from a very modern and well developed production facility located at Tuticorin - Tamilnadu - India (South).

Sahay racks Pvt Ltd employs a team of highly skilled and experienced professionals, who work towards the accomplishment of the goal to provide a complete solution to storage. Frequent research and development and the spirit of the employees has enabled the Company to successfully launch new storage rack system and develop new market.

The Company is committed to maintain the highest level of Quality control procedures as well as the health and safety policies resulting in high quality products and complete customer satisfaction. The company has the accreditation of ISO 9001:2008.

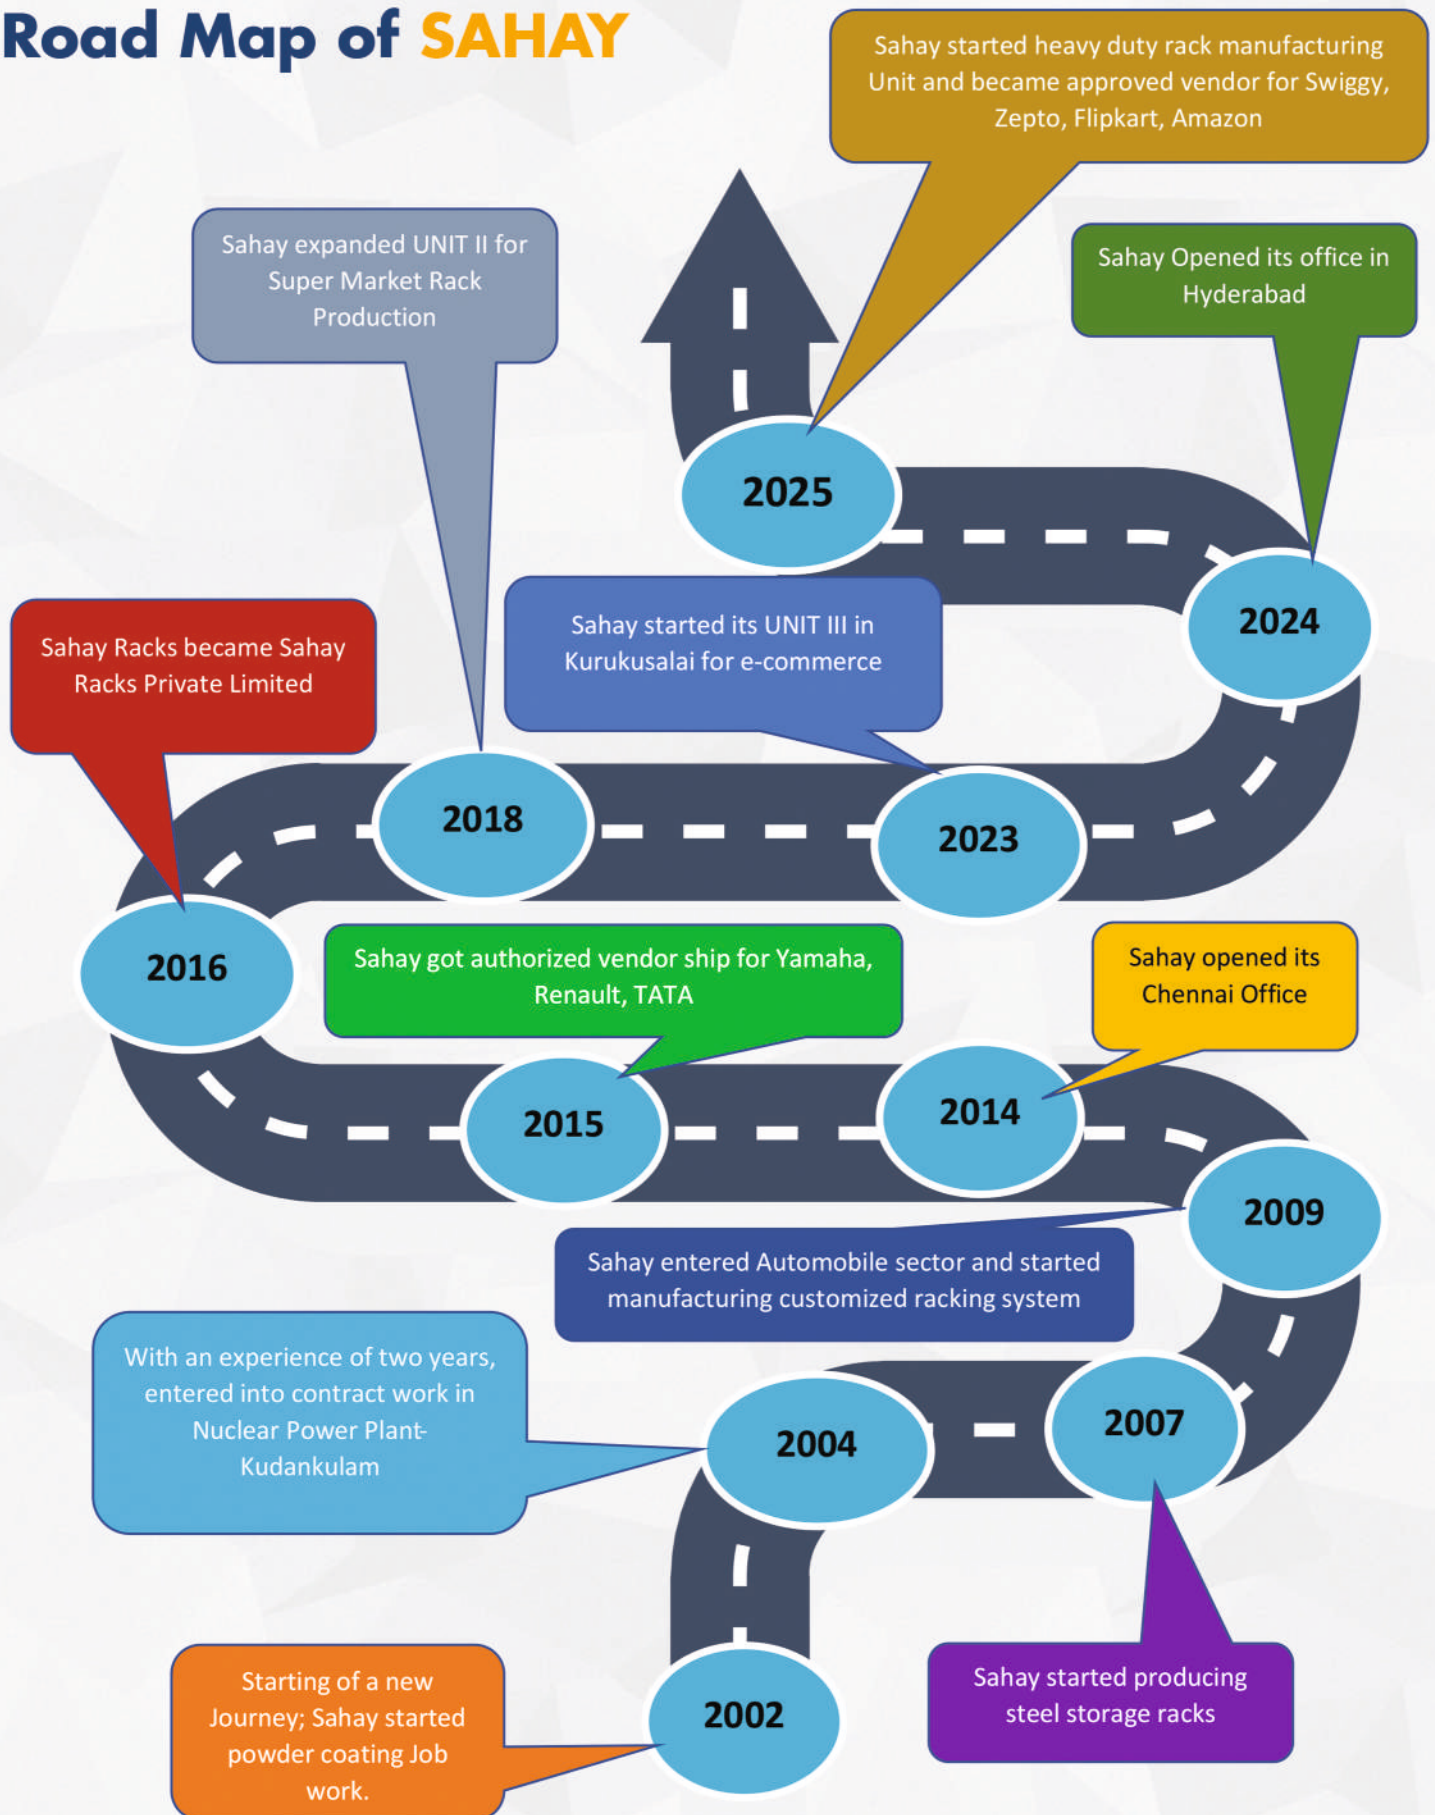

Our Scope starts from the complete study of our clients requirements and prepare CAD layouts as per the space available and suggest the best utilisation of space.

Racks are manufactured under modern state of art facilities, which undergoes a range of quality test from raw material to finished products.

Our Products are manufactured from qualitative steels from reputed manufacturers across India. All products are duly pretank processed under multi-tank operations for de-greasing, antirust treating, zinc phosphate treated, and powder coated as per the specification of automobile manufacturers.

Road Map of SAHAY

Our Facilities

Laser Cutting Machine

The Process starts with the preparation of layout and CAD as per the requirement of our customer.

The designing of racks as per the specification is fed in the computer which systematically runs the punching machine there by enhance the quality in the finish.

Unlike the normal punching of panel, the Laser Cutting Machine enables the perfection. This enables trouble re maintenance of racks.

Shearing Machine

The sheets after processing in cutting machine is fed into shearing machine which automatically cuts the sheets to the sizes as per the measurement fed in the computer. Since the sizes are computer controlled, the perfection in the finish of racks is attained.

Press Brake

The sheets are folded for formation of rack panel, as the bending of sheet is done by automated machinery uniformity & perfection is attained. The folding gives the final outlook of the rack, Hence it need perfection.

Preparatory

The angles and pipes are cut to sizes as per the need. The work is done by skilled labour for accurate measurement and perfection.

The angles and pipes are grinded for flawless finish after the cutting process is finished. This ensures the perfection and smoothness in the finished product.

Power Press Machines

75 ton & 50 ton

The power press machine is used for cutting, shaping, blending and pressing any metal sheet into required shape.

This is a multi-purpose machine used to shape the metal sheet to be used for getting the desired shape of the rack. The task of giving shape to the metal sheet was done as per the machine.

The power press machine has revolutionized this process by adding force and accuracy in the operation of pressing.

Welding Machines

The cut angles and pipes are welded as per the need. The work is done by skilled labour.

Pre - Treatment Process

Powder coating process passes through seven tank pre-treatment process for de-greasing, de-rusting, zinc phosphating and passivation as per the standard recommendations.

Powder Coating

Powder Coating has an edge over painting, as the finish will be smooth and even.

Sahay Racks have inbuilt powder coating plant which is at the best state of art technology. Powder coating is more reliable & durable, making it more superior. Material is baked in oven at 180°C. It makes our rack trouble free & zero maintenance.

Sahay Racks uses the technological advancement to its production taking its unit to great heights. Sahay Racks is more dependable as perfection & accuracy are their aspiring words.

Packing & Despatch

The Panels are finally moved to preparatory department where the material are ready for delivery. The finished products are packed with corrugated sheets and fastened with nylon tape which ensures safety of rack material.

Quality Test

Each batch of finished product passes through quality test at our inbuilt lab.

Special Features

Our special features in rack manufacturing includes upward folding of front rack panel which ensures anti-slippage of spares from the panel. Another feature is that the partition plates can be adjusted as per the need of bin space. Since the holes punched in the panels are done by CNC machine perfection in measurement is maintained and adjusting the partitions are easy and will fit perfectly. Bin can be adjusted as per the need without any additional cost. Each panel has been provided with slots for fixing partition.

The CNC Punches are so perfect to fit the partition plates perfectly. The partition plates are fitted in the panel with the help of screws against the reciprocal bending on both sides. Since the partitions are adjustable, no further cost is incurred for expansion of bin sizes. Our racks not only provide utility of storage, but also helps in better management of floor space. one part at one bin helps in easy access, easy handling and control. The partition in the heavy duty racks can also be adjusted per the need and according to the material handling technique.

Our Products

Small Parts Rack

Customized Storage Solution for easy & safe Storage of small parts. Storage capacity is 207 Bins per Rack. One Part in one Bin ensures easy spares management.

Bin Rack

Open type racks can accommodate plastic bins of various sizes and is customized to hold the bins without compromising space.

Medium Duty Rack without Partition

With stands the pressure of heavy Material and Effective Material Handling. Loading capacity is 500kg per deck.

Medium Duty Rack with Partition

Windshield Rack

Windshield rack is designed to accomodate glasses with out damaging. Extra padding is given in each partition for cushioning between stacking of glasses. Loading capacity is 500kg per deck.

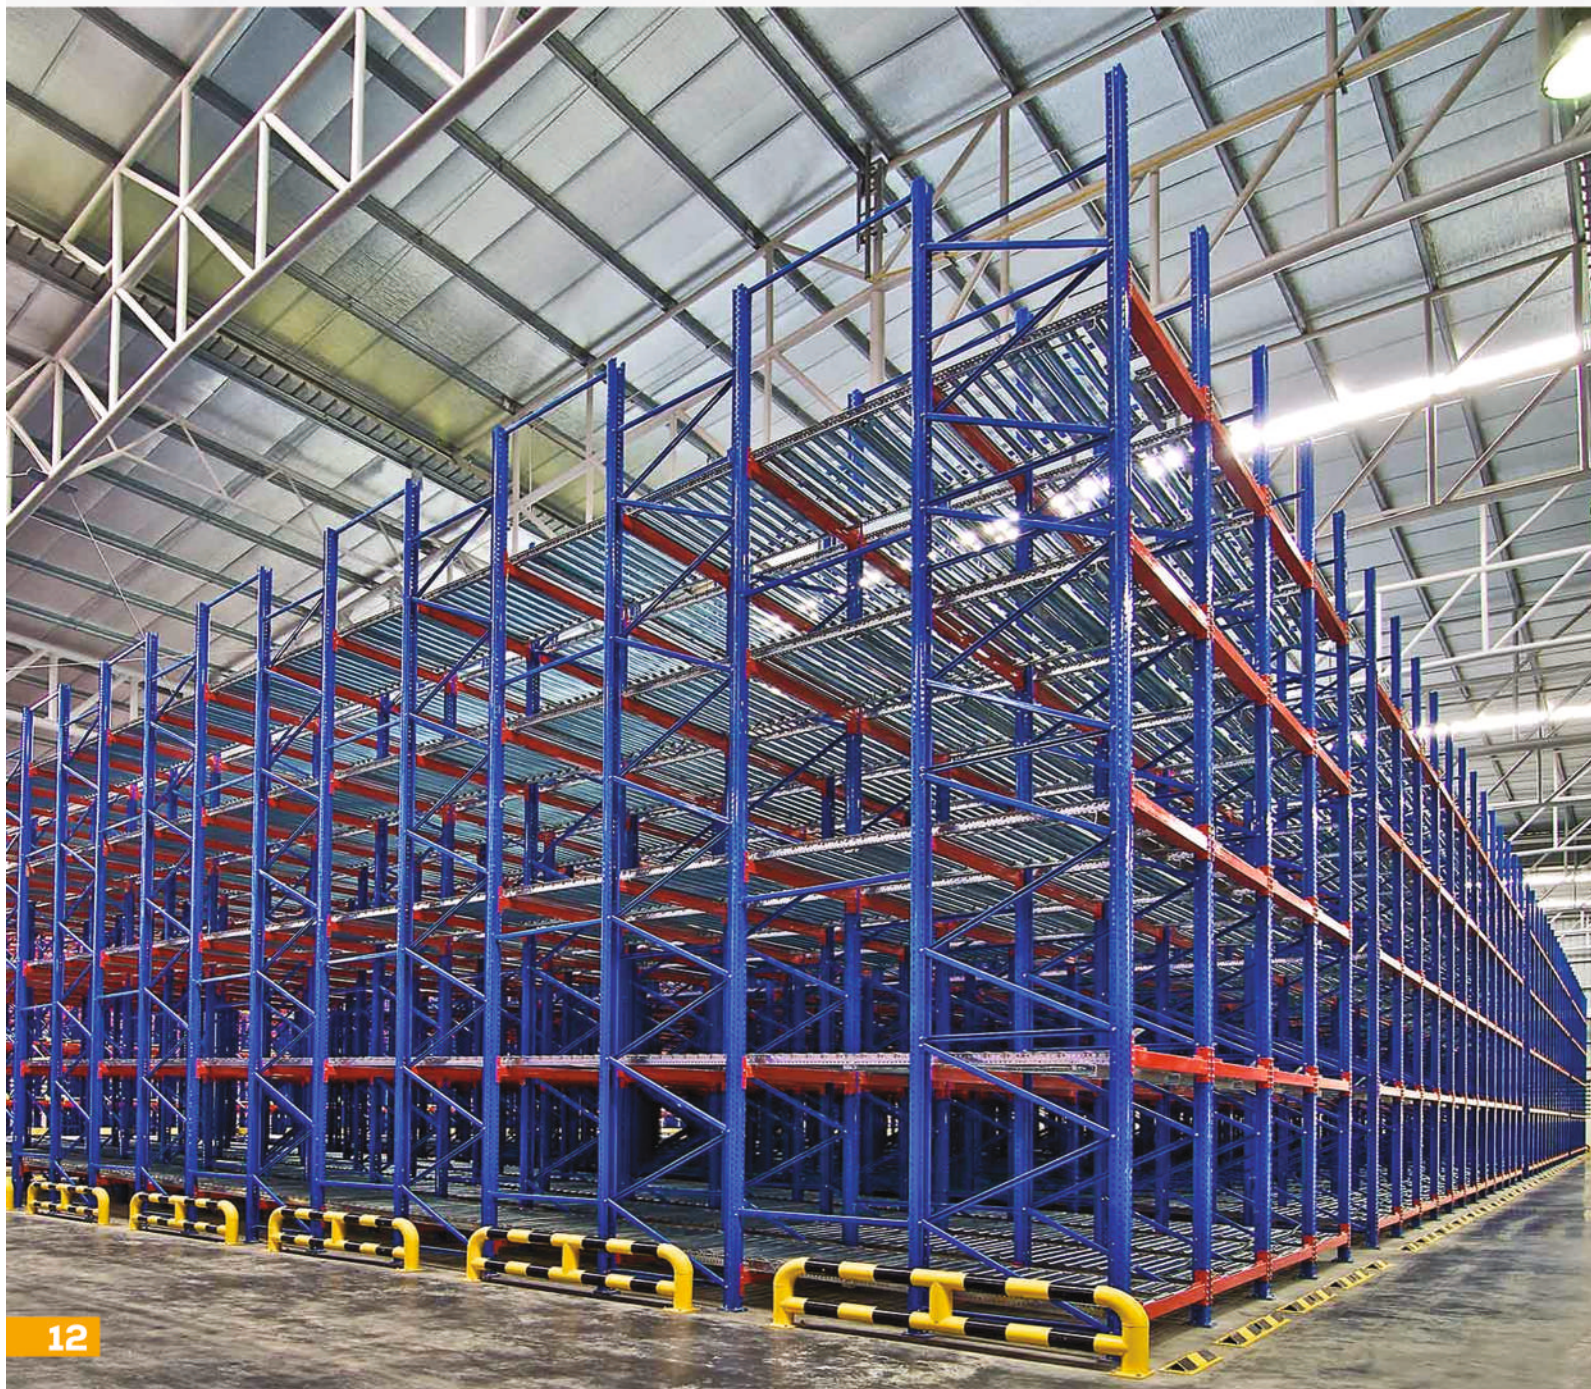

Door Rack

With stands the pressure of heavy material and effective material handling. Specially designed to hold doors intact. Loading capacity is 500kg per deck.

Heavy Duty Rack

Pallet Racking

Selective pallet racking is a versatile storage solution offering direct access to each pallet. With upright frames and beams, it accommodates goods of various sizes, supports forklifts for efficient handling and adjusts to different pallet heights. Ideal for high-turnover warehouses, it maximizes space while ensuring organized and efficient inventory management.

Special Design Racks

Bumper Rack

Bumper Racks are specially designed to hold the bumpers with out any hardship in handling and avoid damages to the bumpers. Loading capacity is 60kg per level

Tyre Rack

Unique design to hold the tyres vertically without rollover. Loading capacity is 450kg per level.

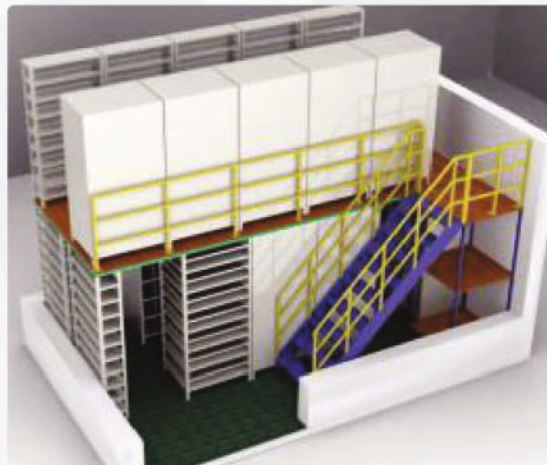

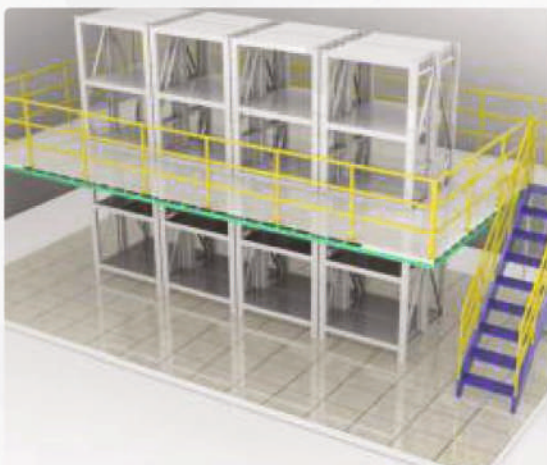

Special Tool Rack

Specially designed for stacking Special Tools for easy handling. Tools can be stored in vertical and horizontal positions.

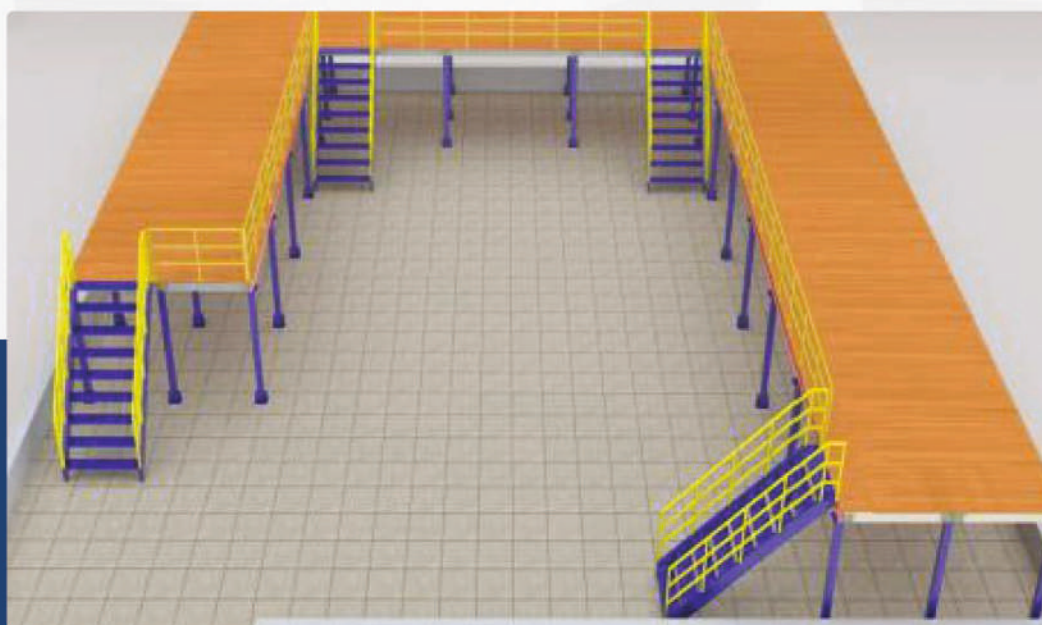

Mezzanine Flooring

A. Rack Supported Mezzanine Flooring

Mezzanine Flooring are for creating additional Space by Increasing Floor Space Vertically. Utilizing Floor space effectively. Mezzanine flooring can be done by Rack supported with metal or plywood. The entire structure can be made with a dismantable design based on site conditions and applications.

B. Fabricated Mezzanine Flooring

The mezzanines are designed with Column Based Mezzanines and Frame Based Mezzanines depending on the applications. The floorings can be with High strength materials.

**Rack Supported
Mezzanine Flooring
(Plywood)**

**Metal Catwalk
Mezzanine**

**Fabricated Mezzanine
with Plywood
/ Metal Topping**

Our Allied Products

Plastic Bins & Crates

A. Bins

Designed for storing and managing of spare parts and components. Bins are modulated by high strength polypropylene and reinforced on the bottom for more strength. Inter-stakable bins.

Colours available : YELLOW & BLUE

Plastic Bins are available in the following sizes

Bin 25 230 x 150 x 126

Bin 35 300 x 210 x 150

Bin 45 350 x 211 x 200

B. Crates

Storing of some large components in an easy way. With more strength & Durability. Since it will drastically lower breakage and damage. It can be transported or stored safely.

Colours available : YELLOW & BLUE

Plastic Crates are available in the following sizes:

Crate 20 400 x 300 x 220

Crate 70 600 x 400 x 320

TROLLEYS

A. Metal Platform Trolley

Useful in Transporting heavy goods with great proficiency. Wheels set in trolley are rigid to with stand the heaviness and make it portable and therefore safe to handle. It is great for both indoor and outdoor use. Chequered Plate is used for high durable platform.

Metal Platform Trolleys are available in the following sizes:

300kg Capacity	720 x 480
400kg Capacity	900 x 60

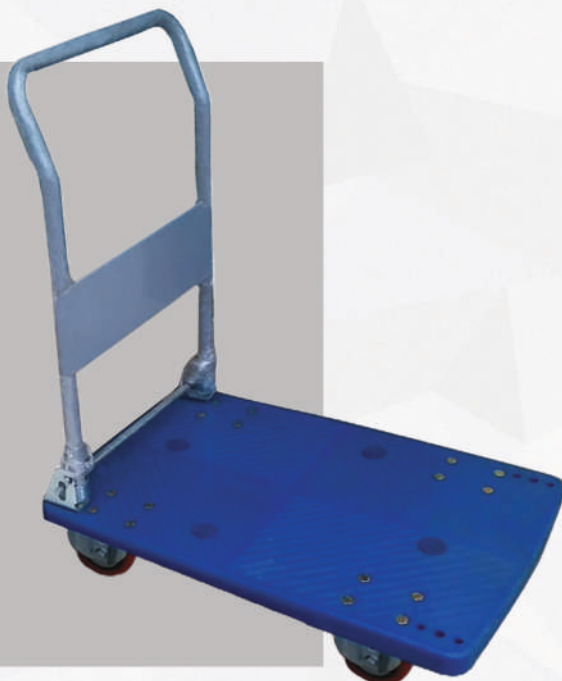

B. Plastic Platform Trolley

Lightweight platform truck with folding handle ideal for use in warehouses, workshops, shops, etc. This lightweight folding plastic platform trolley can carry up to 120kg of weight, making it a great companion for the warehouse, workshops, shops, etc.

Plastic Platform Trolleys are available in the following sizes:

150kg Capacity	720 x 480
250kg Capacity	900 x 600

Tools Trolley

Manufactured from Steel sheet with double wall construction side panels & welded joints for added rigidity. Full pull out drawers for extra accessibility. Quick release smooth running ball bearing drawers. With full locking arrangements. It allows vital tools to be safely transported and precisely housed for speedy accessibility.

Bunk Beds

Utility of vertical space, opens up valuable floor space. With a more compact home, operating costs are reduced. Offer elegant space solutions. It is perfect for small rooms where space saving is essential without compromising on comfort. Easy installation and detachment. Available in two tier, three tier & two tier customized.

Personal Locker Cupboards

6 Locker Cupboards

9 Locker Cupboards

12 Locker Cupboards

16 Locker Cupboards

Double Plated doors and the construction of the case provide extra durability and security of the lockers. There are no sharp edges. The lockers are modern design and high quality. Ventilation is provided for air circulation. Available indifferent sizes and number of lockers.

Locker Cupboards are available in the following:

◆ 6 Locker Cupboard ◆ 9 Locker Cupboard ◆ 12 Locker Cupboard ◆ 18 Locker Cupboard

Collapsible Container

A. Collapsible Container with Metal Sheet

The Primary benefit of having the collapsible container is that they create more efficient storage space. The wall of the collapsible container can be folded easy access of material stored in it. Collapsible containers are very rugged, helping to minimize the cost of purchasing new corrugated containers on a regular schedule.

B. Collapsible Container with PP Sheet

Collapsible Containers offer great protection for all products that are stored. They Take less space when they are collapsed, freeing up storage space for other items when the container are not in use. Due to their collapsible design, they take less space during the transport. It makes the work environment more efficient. It is custom made, as per customer's need.

Ladders

Easy Step Ladder

Wall Type Ladder

'A' Type Ladder

Mobile Ladder

A ladder is a vertical or inclined set of rungs or steps. They were rigid ladders that are self-supporting or that may be leaned against a vertical surface such as a wall, and roll able ladders, such as those made of rope or aluminum, that may be hung from the top. A stepladder is a self-supporting portable ladder, non adjustable in length, with flat steps and a hinged back.
